Non-Final Office Action

Claims 1-9 are pending. No claim is allowed. Instant application claims priority from ARGENTINA P 02 01 04441, filed on November 19, 2002.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

What is intended by the word "includes"? This word is open-ended. A deletion of this term is suggested.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary

Art Unit: 1616

skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over TOWNSON et al. (US Patent No. 5,888,934). See the entire document, especially lines 1-35 of col. 2, the abstract, examples, and the claims.

TOWNSON et al. teaches a solid form of a glyphosate composition consisting of glyphosate and ethoxylated alcohol, which embraces the presently claimed invention.

Instant claims differ from TOWNSON et al. in claiming a broader scope (the second ingredient can be alkanolamines, alkyl aryl sulfonates, sulfonated amines, etc.).

Art Unit: 1616

It would have been obvious to one skilled in the art at the time of invention to prepare a solid herbicidal formulation of a glyphosate and a tensioactive agent in a solid form because TOWNSON et al. teaches . teaches a solid form of a glyphosate composition consisting of glyphosate and ethoxylated alcohol (which is a tensioactive agent).
